

Production and Logistics (HN): Exam Rules and Information

(David Wuttke, 2023-04-12)

1. The exam lasts 2 hours.
2. The examination takes place **onsite** only.
3. We use Moodle platform to provide the exam, and students must submit all answers in Moodle. Students must bring their laptops to the exam.
4. The examination will be a **closed-book exam**. Students must **not** use any material, software (e.g., Excel), or artificial intelligence. There are some specific exceptions:
 - a. Students must use a browser to access the Moodle examination page (but only to access this website. It is not permissible to use the Moodle course page).
 - b. Students may use a **non-programmable** calculator.
 - c. Students may create a one-page A4 cheat sheet and write on one page (not two!) with a pen. No printouts are allowed.
 - d. We provide students with sufficient clean paper sheets for their notes at the beginning and during the exam. Students must not bring their paper beside the one-page cheat sheet.
5. The maximum number of points for the exam is 60.
6. The passing threshold for the exam is 30 points. Appendix A displays the detailed conversion of points to grades.
7. We may include any topic and content of the lecture and the Moodle course page. Not all topics will have the same weight during the exam. We do not exclude any specific content and will create a reasonable exam so that 2 hours are sufficient.
8. There will be two types of questions:
 - a. Type A is open-ended (e.g., numerical calculation) and leads to 2 points.
 - b. Type B allows the selection of several options and leads to 1 point.

Appendix

A. Grading scale

Points (out of 60)	% out of 100	Final Grade
<30	<50%	5.0 (Fail)
~ 33*	~ 55%	4.0
~ 36	~ 60%	3.7
~ 39	~ 65%	3.3
~ 42	~ 70%	3.0
~ 45	~ 75%	2.7
~ 48	~ 80%	2.3
~ 51	~ 85%	2.0
~ 54	~ 90%	1.7
~ 57	~ 95%	1.3
~ 60	~ 100%	1.0

* ~ 33 implies the range of [30,33), the same rule applies to the whole table
